

Supplement

This supplement is for the EPSON Status Monitor Utility and the EPSON Status Monitor 2 Utility.

EPSON Status Monitor Utility

Please ignore the EPSON Status Monitor Utility description in your *Reference Guide*. The EPSON Status Monitor is not included on the CD-ROM that comes with your printer.

EPSON Status Monitor 2 Utility

For Windows 95 or NT 4.0 Users

Note:

This utility is for Windows 95 and NT4.0 users only.

Instead of the EPSON Status Monitor Utility, you can use the EPSON Status Monitor 2 Utility included on the CD-ROM that comes with your printer. For installation instructions, follow the instructions below.

To install the EPSON Status Monitor 2 utility, insert the CD-ROM that comes with your printer into drive D (or E). Click Start, then choose Run. Type D:\EPSETUP.EXE (or E:\EPSETUP.EXE); then click OK and follow the instructions on the screen.
