Cautions and Notes

⚠ *Cautions* must be observed to avoid damage to your equipment.

Notes contain important information and useful tips on the operation of this product.
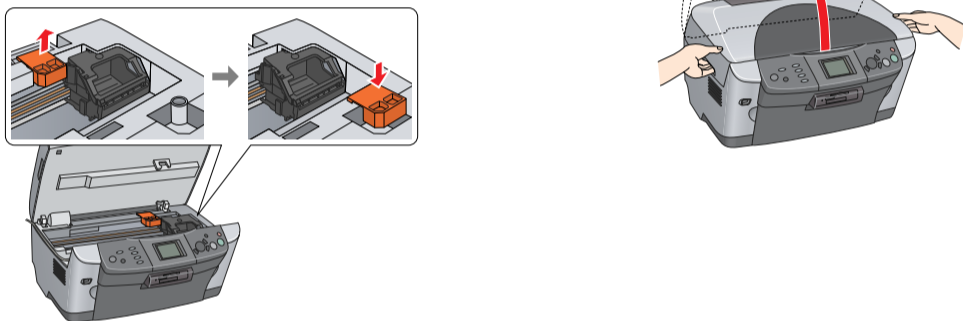

1 Unpacking

Make sure the following parts are included and not damaged.

film holder
paper support
ink cartridges
power cord
CD-ROM

The contents may vary in certain locations.
The power cord comes attached in some countries.

2 Removing the Protective Material

1. Open the scanner unit.
2. Remove the tapes and take out the protective material, then put it in a safe place for future use.
3 Unlocking

Open the document cover and slide the transportation lock lever.
4 Attaching the Parts

1. Attach the paper support.
2. Connect the document cover's cable to the TPU interface connector.

5 Turning On

Plug in the power cord and press the ⏻ On button to turn on this product.

Note:
*Do not connect this product to your computer before step 10, or you will fail to install the software.*

6 Installing Ink Cartridges

1. Open the scanner unit.
2. Open the cartridge cover.

---

3. Remove an ink cartridge from its package.

4. Place all the cartridge into its holder.

5. Then, push the ink cartridge down until it clicks into place and close the cartridge cover.
6. Lower the scanner unit.

Ink charging starts and it takes about two minutes to complete.

`Initial charge. Charging. Please wait.` appears on the LCD panel and this product produces a variety of mechanical sounds. This is normal.

⚠ *Caution:*
❑ *Never turn off this product during the ink charging process.*
❑ *Do not load paper until ink charging is complete.*
7 Selecting a Language

1. Press the **Setup** button.
2. Select `Language` by using the ▲/▼ buttons and press the **OK** button.
3. Use the ◄/► buttons to select a language and press the **OK** button.

Menu items appear in the selected language.

8 Loading Paper

1. Open the output tray.

2. Move the feeder guard towards you.
3. While holding down the edge guide locking tab, slide out the edge guide.

feeder guard

4. Load the stack of paper with the printable side facing down and resting against the guide of feeder guard.

guide

5. Stand the stack of paper against the paper support, then move the feeder guard back.

Now you are ready to use this product as a stand-alone device. See the next section to learn how to make a test copy. If you want to install software, see "Connecting to Your Computer" on this sheet.
9 Making Copies

1. Place a document on the document table.
2. Press the **Copy** button to enter the Copy Mode.

---

3. Use the ◄/► buttons to set the number of copies.
4. Press the ◇ B&W button (to copy in grayscale), or the ◇ Color button (to copy in color).
   This product starts Copying.

⚠ *Caution:*
Do not open the scanner unit during scanning or copying; otherwise, you may damage this product.

This product has a variety of copy functions. See "Features" on this sheet or *Basic Operation Guide*. To use this product with your computer, see next step.

10 Connecting to your Computer

1. Press the ⏻ On button to turn off this product.
2. Connect the USB cable to your computer.

11 Installing the Software

Note:
If your CD is labeled "Multilingual CD", you must install the English software from the English CD first. Next, install your preferred language addition from the Multilingual CD.

For Windows

1. Make sure this product is connected and turned off, then insert the software CD.
2. Turn off all virus protection programs and then click **Continue**.

3. Read the license agreement. If you agree with the terms, click **Agree**.
4. Click **Install**, and then follow the onscreen instructions.
5. When you see this screen, turn on this product and wait until the screen disappears. Then follow the onscreen instructions. Note that EPSON Smart Panel is installed in several steps.

6. Click **Exit** or **Restart Now** on the final screen, then remove the CD-ROM.

Now you are ready to scan and print. See the *Reference Guide* for instructions.
For Mac OS 8.6 to 9.X

1. Make sure this product is connected and turned off, then insert the software CD.
2. Double-click the 🖱 icon in the software CD after inserting it.
3. Follow steps 2 to 6 in "Installing the software for Windows".
4. Open Chooser from the Apple menu.
5. Select **SP RX600 Series** and your USB port, and then close Chooser.

Now you are ready to scan and print. See the *Reference Guide* for instructions.

For Mac OS X

1. Make sure this product is connected turned off, then insert the software CD.
   Note:
   ❑ *This software does not support the UNIX File System (UFS) for Mac OS X. Install the software on a disk or in a partition that does not use UFS.*
   ❑ *This product does not support the Mac OS X Classic environment.*
2. Open the Mac OS X folder and then double-click the icon after inserting the software CD.
3. Follow steps 2 to 6 in "Installing the software for Windows".
4. Open the Applications folder on your hard drive, and then open the Utilities folder and double-click **Print Center** icon.
5. Click **Add** icon in the Printer List dialog box.
6. Select **EPSON USB**, click **Stylus Photo RX600**, and then select **All** from the Page Setup pop-up menu. Finally, click **Add**.
7. Make sure the Printer List contains the printer options (margin-type) options, then close the Printer List dialog box.
Now you are ready to scan and print. See the *Reference Guide* for instructions.
