User's Guide

Features of the Projector

Before Using the Projector

This explains the procedures to be carried out before using the projector, including setup and connections.

Part Names and Functions

Basic Operations

This explains basic functions such as turning the projector on and off and adjusting the projected images.

Advanced Operations

This explains about the configuration menus and functions that can be used to enhance projection.

List of Configuration Menu Commands

Appendices

This provides supplementary information on maintenance methods and other ways to extend the operating life of the projector.

Optional Accessories and Consumables

*This manual contains information for both the EMP-835 and the EMP-830. The illustrations given in the manual depict the EMP-835 unless otherwise noted.

EMP NetworkManager Operation Guide

This explains how to change all of the projector's network settings from a computer, and how to set up the mail notification function for sending e-mail notification messages when there is a problem or warning involving the projector.

What You Can Do With EMP NetworkManager

Starting the EMP NetworkManager

Connecting to the Projector

Setting Network Parameters

If the Required Projector is Not Displayed

If a Problem Notification E-mail Message has been Sent

EMP Monitor Operation Guide

This explains how to use a computer that is connected to a network in order to centrally control multiple projectors.

What You Can Do With EMP Monitor

Registering Projectors for Monitoring

Main EMP Monitor Window

If a Projector Cannot be Monitored or Controlled Using EMP Monitor

Click the language to read the manual in that language.
