

EPSON®

Epson *PictureMate 500*

Turn your memories into professional photos – the easy way

Now you can produce quality photos when and where you like, thanks to the Epson PictureMate 500. Capture the moment with your digital camera or compatible camera phone¹, preview and select your photos on the LCD screen and print. You don't even need a computer.

So easy

View, select and print using the 2.4" colour LCD screen

Professional results at your fingertips.

So professional

The Epson PictureMate 500 makes photography easy for everyone and never compromises on quality. It produces long-lasting, vivid colours that bring memories back to life. You can create your own 10x15cm borderless prints just like the ones you used to get from your photo lab. Furthermore, you can produce your photos in black and white or sepia, zoom in and enlarge details by using the 2.4" colour LCD screen.

So convenient

The Epson PictureMate 500 is a compact personal photo lab. You can process your photos in the convenience of your home, or you can take it along to special occasions. It's got a handle, and if you use the optional battery you won't even need to plug it in. Just bring it with you, take your shots, print out and share the photos.

So straightforward

The Epson PictureMate 500 is designed to make superb photo printing as straightforward as possible. Being a stand alone photo lab, there's no need for a computer. You can print photos directly from your digital camera, memory card or compatible camera phone¹. All you need to do is look at your photos on the clear, bright 2.4" colour LCD monitor and choose the ones you want to print.

So affordable

The Epson PictureMate 500 uses the Epson PicturePack, which includes everything you need to produce fantastic photos. Apart from making things easier you get real value for money.

So durable

You'll be able to enjoy your photos for years to come. Photos from the Epson PictureMate 500 are resistant to water spills and will last for over 100 years!² Your shots will stay clear, sharp and colourful and will last for generations.

High quality photo printing has never been easier

- Produce premium lab quality, 10 x 15cm (4 x 6 inch) borderless photos
- Process your photos in the convenience of your home
