Store and retrieve your media files – even on the move
When you're shooting on location, the Epson P-4000 Multimedia Storage Viewer makes your life a whole lot easier. Portable, stylish and robust, it's packed with the latest technology, including a large 3.8", high resolution, LCD screen. View your images and select the best ones in seconds.

Designed as a vital tool for professional photographers, it's compatible with digital cameras and camcorders, supporting RAW data in formats supplied by most major manufacturers. It also accommodates memory cards and has slots for both CF and SD cards.

Screen test your images
The bright, clear Photo Fine display gives you fantastic detail that shows the most subtle colours, even in shadowed or highlighted areas. Now storing, viewing and selecting images is easier than ever, giving you confidence in making the right choice every time.

Set the viewer to photo playback and use the histogram function to assess the quality of each individual image with pinpoint accuracy.

Versatile multi-media

Your Epson P-4000 Multimedia Storage Viewer can be loaded with your favourite photographs, movies and tunes, to be shared with friends, family and colleagues anywhere, anytime. You can even print images directly to any Epson USB DIRECT-PRINT compatible printer without the need for a computer.

Massive storage

Store and back up your images - the Epson P-4000 Multimedia Storage Viewer has an incredible 80GB memory that will keep all your photographs, movies and memories safe. With robust good looks and a high quality aluminium finish, it's the most stylish external hard drive you've ever seen.
