Optional Accessories

EasyMP™ Operation Guide

Preparing a Presentation (Using EMP SlideMaker2)

Here, we will describe the methods for creating and sending scenarios.

Showing the Presentation (Using the CardPlayer)

Here, we will describe how to project a scenario sent to a memory card using EMP SlideMaker2, and how to project graphics and movie files. A memory card on which graphics or movie files have been saved, or, a digital camera which recorded the photographs, can be used.

Advanced Operations

Here, we will describe how to manage the setting of a projector connected to a computer on a network.

For details of LAN cards which can be used:
