EPSON®
EXCEED YOUR VISION

Epson *PageProofer EX*

Easy-to-use software for multiple image layout and printing

Epson PageProofer EX is an easy-to-use software package that helps you produce high-quality multiple image prints for portfolios, posters, contact sheets, photo collages and portrait albums.

The easy solution for all kinds of printing
Epson PageProofer EX gives you all the tools you need to create layouts of multiple images for a range of applications, from contact sheets and portfolios to large-format banners.

Save time and money
Whether you're a professional or a novice, the '3-step print' process makes it so easy to print – so easy it will save you time and money. Simply:
1. Pick your images
2. Drop them into a template or create one of your own
3. Print

Choice of templates
You can use the standard templates or customise them to create your own original layouts. Settings, such as image size, cropping and colour management, are easy to edit. You can also add text to make posters.

Easy to print
It's so simple to produce high-quality prints. You can use any of the following printers: Epson Stylus Pro 4800, Epson Stylus Pro 7800, Epson Stylus Pro 9800, and the Epson Stylus Photo R2400. Our innovative Epson UltraChrome K3 inks also ensure reliable vivid colours for the best results print after print.

Key benefits
