Viewing Movies on a Website

Making network settings
Make Wi-Fi settings to access the Internet in a wireless LAN environment.

### Check the following before making settings
- The SSID (network name) for the wireless LAN access point or public wireless LAN service you want to connect to.
- Password to the network and security type, if security is enabled.
❶ **Select [⊞] on the Home screen.**
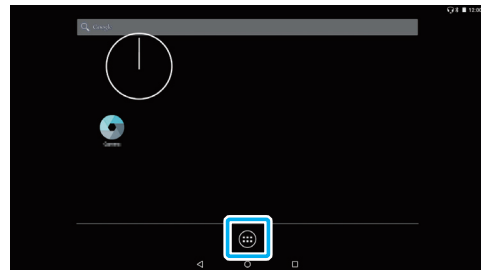

The APPS list screen is displayed.

❷ **Select [⚙] on the APPS list screen.**

The Settings screen is displayed.

❸ **Select [Wireless & networks] - [Wi-Fi].**

❹ **If [Off] is selected, set it to [On].**

Available SSIDs (network names) are displayed.

❺ **Select the SSID (network name) you want to connect to.**
❻ **Enter the password, and then select [CONNECT].**

When [▼] is displayed on the status bar, setup is complete.
Using a Browser
Connect to the Internet and view movies on a Website.

❶ **Select [🌐] on the APPS list screen.**

The Browser screen is displayed.

❷ **Select the URL field and then enter a search keyword or a URL.**

Entering text
When you select a location where text entry is possible, the software keyboard is displayed. Enter text using the keyboard.

Changing the text entry mode
Press the [?123] key or the [ABC] key to switch between characters on the keyboard, and press the [↑] key to switch between upper and lower case letters.
Viewing Movies Copied from a Computer

Copying data to this product

Windows
Windows Vista and later versions of Windows are supported.

OS X
Install Android File Transfer from Android official site to your computer.

Supported file format with Gallery
- Movies: MP4 (MPEG4+AAC), MPEG2 (H.264+AAC), VP8
- Still images: JPEG, PNG, BMP, GIF

❶ **Connect the USB cable to the controller and to your computer.**

The computer recognizes this product as a portable device.

❷ **Open the portable device, and then copy data you want to view to the internal storage or microSD card.**

Disconnect the USB cable after you are finished copying data.

Viewing the copied data in the Gallery

❶ **Select [⊞] on the Home screen.**

The APPS list screen is displayed.

❷ **Select [🖼] on the APPS list screen.**

The Gallery's main screen is displayed.

❸ **Select the data you want to view.**

Select [▶] to display the application selection screen.
Select [Video Player] to start playing the data.
Operations while playing movies

1 Pause
The pause button is displayed when you select the screen. Select [⏸] to pause play back.

2 Movie positioning
Drag [▬] to the right or left to change the position where you want to start playing.

When using a commercially available microSD card
Insert the card in the microSD card slot on the controller, and then copy the data.

Supported memory cards
- microSD cards (up to 2 GB)
- microSDHC cards (up to 32 GB)

* A microSD card is not supplied with this product.

Removing a microSD card

1 Select [⚙] on the APPS list screen, and then select [Storage] - [Unmount SD card] - [OK] to safely remove the card.

2 Open the cover, press the microSD card once in the direction shown by the arrow, and then remove the card.
